

## McCarren Park Apartments Include ‘Canine Cleaning Station’ and Olympic Pool

WILLIAMSBURG —The next level of luxury is about to hit the neighborhood — in a nearly block-long complex right across from McCarren Park.

A luxury eight-story apartment complex at [101 Bedford Ave.](#) is set to welcome its first renters in August, a spokeswoman for the developer said.

The four-building complex features an Olympic-sized indoor pool and a “canine cleaning station” for residents to have their dogs groomed in the “pet friendly environment,” the developer’s announcement said. A sound-proof recording studio, 2,500 square-foot fitness center and a “park-like” courtyard to “complement” McCarren are also included in the space.

The development, designed by the prolific architect Karl Fischer, hits the market with studios, one-bedroom and two-bedroom apartments, the spokeswoman said. Studios will run from \$2,400 monthly.
